Erratum

After publication of the original article [1], it came to the authors' attention that the title had been incorrectly published as **The estimated incidence of pertussis in people aged 50 years old in the United States, 2006–2010**.

“50 years old” should have read as “50 years or older”, so the title should have read: **The estimated incidence of pertussis in people aged 50 years old or older in the United States, 2006–2010**. The correct title of the original article appears in this erratum.
